

U.S. NAVY ENERGY, ENVIRONMENT & CLIMATE CHANGE

Energy

Incentivized Energy Conservation

What is it?

i-ENCON is a NAVSEA meet-the-Fleet program predicated on incentivizing ship fuel conservation.

How Does it Work?

The i-ENCON team travels to Naval US Bases around the world to meet with ship operators to review techniques for operational fuel savings. The program offers monetary and prestigious recognition awards to top ship performers.

What Will it Accomplish?

i-ENCON will continue to lead the culture change surrounding energy conservation through communication, education and incentives.

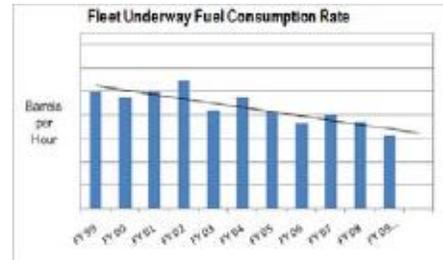

Applications

Fleet-wide.

Metrics

Continued reduction in fleet barrels per hour rate. Generating additional fuel (under burn) to maintain readiness.
