

GIVE US YOUR **Best Shot**

Hey, all you would-be photographers out there. Give us your best shot!

How would you like to see your work published in a future issue of *Currents*? We know that, for many of you, photography is more than a casual pursuit. You love to capture unique views of the world with the click of a shutter or the tap of a smartphone. And we'd love to publish your best work.

So share your best shot with us. We're looking for high quality, high-resolution imaginative images of:

1. Natural resources on Navy installations and at sea
2. Navy personnel protecting the environment
3. Energy and environmental management projects on Navy installations and ships

Along with your image(s), please provide your name, contact information and a description of your image and how you took it. Images must be submitted to our Managing Editor, Bruce McCaffrey at brucemccaffrey@sbcglobal.net in digital format (as .jpg files) at a resolution of at least 300 dots per inch.

If you are using a digital camera or a smartphone, set your file size as large as possible.

Help us present the Navy's energy and environmental management efforts through your unique perspective. We'll take a careful look at everything you send and try to publish as much of your inspired work as possible.

So give us your best shot!
